Engine Collides With Load of Oats

A freight engine that was shunting on the flour mill siding collided with a load of oats at the boundary street crossing of the C. P. R. on Monday afternoon. Gordon McLean, who was driving, fortunately escaped any injury, and the team also came through the ordeal unscratched, but what happened to the wagon and oats which received the full impact can be imagined. The wagon was smashed up, a part of it being carried on the water tank of the engine, and grain and parts of the wagon decorated the track for some distance.

An Important Invention

It has fallen to the lot of Mr. O. E. Graves, son of D. E. Graves, of Henrietta, to have submitted to the government board of selectors a means to defeat the effects of the submarine warfare, a device that will be adopted by the government to be put in use. Mr. Graves received notification from government authorities that his device has been tested and found practical and that it would be adopted as one of the devices to be employed by the government for protecting ocean-going vessels against torpedoes. One interesting thing about Mr. Graves' suggestion is, that while he made the suggestion of the principle to be used and while it became much elaborated upon in the course of its being perfected, it also accomplished a great deal more than he ever hoped for it and will not only prevent a torpedo from damaging the vessel toward which it is aimed, but captures the torpedo without exploding it. —Richland Center News, Wis.

The above item refers to a nephew of Mr. J. R. Moon, of Elkton, and the invention is a recent one. This young man, who is only 23 years of age, is to be congratulated on his inventive genius and it is to be hoped that it works out satisfactorily and so help to overcome the murderous submarine.

Government Will Sell Low Priced Tractors

According to reports from Ottawa the Dominion Government is making arrangements to supply the farmers with the new Ford tractor which the English government has purchased in such large quantities for use over in England.

It is stated that these tractors will be sold at cost, \$800 cash, and that delivery of these machines will soon start.

This is one of the ways the government will help out on the greater production campaign, as those who have seen these tractors at work say they are great labor savers and will do almost any work on a farm.

Red Cross Fund

Received by Mrs. A. G. Studer:

Mr. and Mrs. W. Wrigglesworth	\$2.00
Mrs. (Dr.) Reid, (sent from Montreal)	2.00
Women's Institute box social, to be divided between Red Cross and Ogden Home	77.85

Neapolis News

Mrs. Parsons and Mrs. R. E. Lantz are away at Calgary on a business trip.

Mr. McNeil is leaving the Morasch farm and is moving on to the property he has bought five miles south-east of where he now lives.

After the striking Drumheller miners had prevailed on the authorities to remove the machine gun and other means of protection for property they still refuse to go back to work until the Moody mine is unionized.

Germans Afraid of Slavs. Politics in England Causing Trouble

The Huns have declared the armistice between themselves and the Russians at an end and are planning active prosecution of the war against Bolshevik forces. Germany is afraid that the Bolsheviks will kill the prisoners if driven to desperation, but announces that reprisals will be made. All the food in Dorpet district, a German settlement in Russia, has been confiscated and German women and children are beginning to suffer.

The political storm in England is rapidly coming to a head. The government has announced the resignation of Gen. Robertson, Chief of the British Imperial General Staff, while Gen. Robertson himself says he has not resigned. It is expected that a crisis will be reached in these matters early this week and then it will be seen if the house of commons will stand by Lloyd-George and his government or whether a new government will have to be formed. According to some reports the people as a whole are behind Lloyd-George.

Two air raids occurred over London on Saturday night last but only one Hun raider succeeded in getting through the defences, which dropped one bomb, causing four casualties. An aerial raid over Dover was also repelled by British aviators.

The big German offensive on the west front is expected to start almost at any time and it is thought will take two forms, one a big aerial attack on London and an attempt to break through at four points, Passchendaele, the Somme, the Aisne valley, and Lorraine, the aim being to capture Calais and advance towards Paris. Every precaution has been taken by the Allies to meet this emergency and a very optimistic feeling prevails that they will be able to hold the Germans.

President of the United Farmers of Alberta on Bacon Production

When addressing an audience of farmers and townfolk at Red Deer, Mr. Wood, President of the United Farmers of Alberta, said:

"I have two sons. Both are of military age. Both have been exempted because they are farmers and their services are needed as producers. Our land is better suited to cattle raising than to the production of wheat. We purpose continuing in the cattle raising business, but we also intend to grow as much wheat as we can, although wheat is an uncertain crop with us. We also intend to raise as many or more hogs than we have been growing. We will do this because we are told, on what we think is good authority, that our army and our allies are in urgent need of these commodities, namely, bread and bacon.

It may be that the returns will not prove so certain or so great as they would be from the growing of those things to which our land is best suited, but we believe that we will be able to derive a fair return from them, and we are glad to be permitted to serve in this cause at home on our own farm.

Having been exempted from service because they are farmers, my sons feel that there is a special duty resting on them to produce to the limit of their ability those things that will contribute most to the cause for which our soldiers are fighting, and for which they would have to fight had they not been exempted.

In view of the high price of labor and of those commodities which the farmers have to buy, raising hogs at around 16c per pound may not seem so attractive as selling coarse grains at present prices, but nevertheless, on the whole it is highly remunerative and, as compared with

serving in the trenches at a dollar and ten cents per day, it looks mighty good to us.

This service is just as essential to the cause as that being given in the trenches. The question is, are we going to give the best service we can?

I know enough about the spirit of the Alberta farmers to know that, as soon as they understand the necessities of the case and see clearly their duty, they will make good.

Western Mutual Fire Insurance Co.

Take notice that the fourth annual meeting of the Western Mutual Fire Insurance Company will be held at 2 p.m. on Friday, February 22nd, 1918, at the Head Office of the Company, Didsbury, Alberta.

BUSINESS

(1) Consideration of Reports for the year and statement of receipts and expenditures, assets and liabilities.

(2) Report of the Auditor for the Company thereon.

(3) Election of Directors and Auditors.

(4) Any other important business.

Dated at Didsbury this 4th day of February, 1918.

By order of the Board,
PARKER R. REED,
Secretary.

Huge Airplane Factory

All Processes of Construction From Forest to Air Under One Roof

Somewhere in America there has been erected a one-story building devoted to the construction of airplanes, which, so far as we know, is the greatest structure of its kind in existence. It reaches 900 feet in one direction and 1,800 feet, or, say, a quarter of a mile, in the other direction and the whole of this area is covered by a single roof and constitutes, except for a fire partition wall, a single shop.

The layout of the plant upon this vast floor space has been so arranged that the raw materials, in the shape of sawn spruce, brought here mainly from the forests of Oregon, enter the building at one end, and the finished planes leave it at the other end. — From the Scientific American.

Nerves of The Stomach

Were Weak and Inactive as Result of Nervous Prostration—Lost Twenty Pounds—Had to Take Sleeping Powders to Get Any Rest

Many people never realize that the movement and action of every organ of the human body is dependent on the energy supplied by the nervous system.

When the nervous system gets run down there is weakness throughout the entire body. You feel tired and languid and your stomach and other digestive organs are similarly affected. Appetite fails, digestion is poor, you do not get the good of what you eat and gradually grow weaker and weaker.

This process can only be stopped by such treatment as Dr. Chase's Nerve Food, which goes directly to create new nerve force and thereby to invigorate the whole human body.

Mrs. Geo. S. Ellse, 46 Davidson street, St. Catharines, Ont., writes: "My husband had an attack of nervous prostration, and, although he doctored for some time and tried different other medicines, he could not get relief. He had to resort to sleeping powders given him by the doctor to make him sleep. The greater part of the trouble seemed to be with the nerves of his stomach. He began to lose weight, and kept on going down until he had lost twenty pounds. We had read advertisements in the newspapers for Dr. Chase's Nerve Food, and noticed that it seemed to be doing a lot of good for people troubled with nervousness, so my husband decided to try it. He found benefit almost from the start, and continued this treatment until he had taken about twelve or thirteen boxes. The results were most satisfactory. He is now enjoying good health, sleeps well, and has gained back nearly all the weight he had lost. He also uses Dr. Chase's Kidney-Liver Pills occasionally, and thinks them an excellent remedy. I have also used this latter medicine for dizzy spells and liver trouble, and was completely cured of these complaints. We think a great deal of Dr. Chase's medicines, and cannot speak too highly of them."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmansou, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Mother—Now, Willie, when I have to punish you like this it hurts me more than it does you.

Willie—But you ain't a hollerer any.—Baltimore American.

Now for Another War!

"Status Quo" Peace a Sure Method of Embroiling the World Again

Europe, even apart from Germany, can whole heartedly be trusted to take up again the work of war, after the necessary interval; so long as we are careful to conclude the present round, in the manner suggested by Germany without any pretense of victory or vindication.

Nobody who is not a lunatic can reasonably be accused of proposing a peace of the European status quo with any intention of it lasting forever, or lasting at all, except until the time of the real trial and send the German hegemony of Europe will be either logically completed and made habitable, or logically condemned and pulled down.

The whole European disease, which the war was once expected to cure, consisted in the fact that the lines of military and imperial occupation cut across and concentrated the lines of living tradition and human history. It cannot be meant seriously, as a piece of magnanimity or humanitarianism, to leave these artificial lines at the end of this European war precisely as they happened to be at the end of the last European war. It can only be meant, and no doubt it is meant, as a preliminary expedition with an eye to the next European war.—G. K. Chesterton in the North American Review.

Aviation has

Lost its Romance

Is Fast Losing Its Picturesque and Romantic Features

Attentive readers of the war news must have noticed that the dispatches describing the work of the aviators on the various fronts no longer deal to any such extent as in the past with single combats, man to man. This means that aerial warfare, like that on land, has developed in an unexpected direction and is fast losing its picturesque and romantic features.

The fliers, nowadays, do comparatively little of the solitary hunting for solitary antagonists that gave them fame as "aces." Instead, they work in carefully organized groups, the members of which are expected to show, not independence and initiative, but the ability to carry out with exactness plans minutely laid out for them by superiors who never quit the ground.

Each member of the group has an assigned part and place in its operations, and usually they are divided, some flying at a great height, some at a moderate one, and the rest up only a few hundred feet. In other words, they have "banks," just as the terrestrial fighters, but these are up and down, not right and left. They must be guarded none the less on that account, and sometimes they are "turned," with the familiar disastrous results.

Aviation is become a "service" like another and its principle is co-operation. Hence will come military results, but not much, or at any rate not so much, fame for individual aviators.—New York Times.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Some Reciprocity

A South Dakota state senator recently gave a new illustration of that fine saying of an ancient philosopher, "Man was born for mutual assistance."

A customer entered the small-town barber shop.

"How soon can you cut my hair?" he asked of the proprietor, who was seated in an easy chair, perusing the pages of a dime novel.

"Bill," said the barber, addressing his errand boy, "run over and tell the editor that I'd like my scissors if he's done editing the paper. Gentlemen waitin' for a hair cut."—Pittsburgh Chronicle-Despatch.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Patience Would Help

"Patience and perseverance will accomplish all things," was the favorite saying of an old farmer.

He had just made this remark in a train one day on the way to market, when a pompous individual in the next seat turned to him and said:

"Nonsense, sir! I can tell you many things which neither patience nor perseverance can accomplish."

"Perhaps you can," said the farmer, "but I have never yet come across one thing."

"Well, then, I'll tell you one, Will: patience and perseverance ever enable you to carry water in a sieve?"

"Certainly."

"I would like to know how."

"Simply by waiting patiently for the water to freeze."—Topeka State Journal.

Young Mothers

Reserve strength for motherhood is of two-fold importance and thoughtful women before and after maternity take

SCOTT'S EMULSION

It supplies pure cod liver oil for rich blood and contains lime and soda with medicinal glycerine, all important ingredients for strengthening the nervous system and furnishing abundant nourishment. It is free from drugs. Insist on the genuine.

Scott & Bowne, Toronto, Ont. 17-20

The Men of Mons

The Indomitable Fighting Spirit of the British Army

Among Britain's most illustrious military achievements history will record the heroic and effective service of the "contemptible little army" which blocked the German drive into France in the early days of the war. The men who fought the battle of Mons, making the Teuton pay dearly for every foot of invaded soil, and who, at great sacrifice and against tremendous odds, stemmed the drive of the Hun hordes, won a place among the empire's immortals.

The scenes in London when the King and Queen headed the public tribute to the valor of these soldiers were profoundly impressive. The great choral commemoration was attended by seven hundred of the survivors, the majority maimed and crippled but proudly wearing the decorations which attested their bravery in service. The cables tell that they "cheered, sang, and waved back salutations" from the great appreciative crowds.

This is the indomitable spirit which makes Britons the world over men to be reckoned with. Undismayed by danger, undaunted by odds, cheerful under suffering, they set themselves to the titanic tasks of service. And they fight to the end. It is this spirit which insures ultimate and complete triumph for the cause of civilization. Where the men who fought at Mons—the first hundred thousand, the best army of its size the world ever saw—led in heroism and achievement, their brothers from all parts of the empire have followed. The standard they raised has been kept flying, and the inspiration they supplied still dominates the fighting forces.—Toronto Globe.

Minard's Liniment Cures Diphtheria.

Prophecy Quickly Fulfilled

The evening lesson was from the Book of Job, and the minister had just read: "Yea, the light of the wicked shall be put out," when immediately the church was in total darkness.

"Brethren," said the minister, with scarcely a moment's pause, "in view of the sudden and startling fulfillment of this prophecy we will spend a few minutes in silent prayer for the electric-lighting company."—London Fun.

"Do you believe in reincarnation?"

"Absolutely—so there's not the slightest need of your taking up your time to tell me what it's all about."—Washington Star.

"Alice married a nonagenarian."

"And did she change her religion for his?"—Boston Transcript.

FOOD CONSERVATION

You can take your full share in this important national win-the-war measure, and benefit both in pocket and in health, if you use the proper economic and labor-saving methods in the preparation of the staff of life—bread.

The 'Canuck' Bread Mixer is the great modern exponent of cheaper, better, cleaner, digestible home-made bread. Cut your baker's bill in half, and eliminate your doctor's account. Save your money, and buy government war-bonds.

Sold by your local dealer, or may be ordered direct from us or our agents, delivered, all charges paid.

Four loaf size, each.....\$2.75

Eight loaf size, each.....3.25

The principle of saving and economy as practiced by users of the "Canuck" will eventually win the war. Give your wife a "Canuck" for Christmas. Christmas giving for 1917 must be confined to useful—not luxurious—gifts.

Hamilton Canada

The Oak-Ribbed Fleet

Every Seaworthy Vessel Now Pressed Into Service

Every vessel that is seaworthy, however old, is pressed into the transport service in Britain. Famous racing yachts that once contested with the kaiser's yacht at Cowes for the pennant are now carrying cargoes or doing service as patrol boats under engine power instead of snow-white canvass. The old convict ship, "Success," is a tramp steamer carrying cargoes instead of a museum of ancient penal times.

The old "hearts of oak" and teak ships of Elizabethan days are once more riding the stormy seas with all the old reckless daring of Armada days. Wind-jammers even have been summoned from the watery deep by England's lord high admiral to bid defiance to the foul boasts of the Prussian Parma. The old hulks that lay on the sands around the shores of the British Isles have been rudely awakened from their slumbers, and under sail and steam, are doing their bit in the great war. The scarcity of oil and coal has brought the sailing craft back to the high seas. Life before the mast has changed during the last fifty years, but the yarns of the skipper who has rounded the Horn are unexciting compared with the tales of the sea by men who fearlessly face the perils of the unseen submarine that Britain and liberty may not succumb to the yoke of kaiserism.—Toronto Globe.

Minard's Liniment Cures Garget in Cows.

Prices Fixed on Bran and Shorts

Preference in Distribution of Supplies Will Be Given to Farmers

The food controller for the Dominion of Canada has announced that he has fixed the prices on bran and shorts at \$24.50 and \$29.50 respectively a ton in bulk, f.o.b., Port William. These prices are effective from December 17. The margin of profit to dealers may also be fixed.

Prices of feed at Western points will be the fixed prices less freight to Port William. The prices at Regina, Saskatchewan, and Calgary, Alberta, for bran in bulk will be about \$21.50 and for shorts about \$26.50 a ton. The cost of sacks is about \$6.30 a ton. The prices ruling in the west before being fixed were \$34 a ton for bran and \$38 a ton for shorts in sacks delivered at country points.

The millers' committee is acting in co-operation with the food controller, and preference in the distribution of supplies will be given to farmers.

"Terribly old-fashioned, isn't she?"

"Yes," replied Miss Cayenne. "I actually believe that if she felt compelled to do fancy work she'd rather stitch 'God Bless Our Home' on cardboard than take a hand-painted banner out in the street and try to start a riot."—Washington Star.

Neuralgia Headaches

After shopping or after a hard day are quickly relieved with Sloan's Liniment. So easy to apply, no rubbing, and so promptly effective. Cleaner and more convenient than musky plasters and ointments. It does not stain the skin, or clog the pores. Every home should have a bottle handy for sprains, strains, lame back, rheumatic pains and stiff, sore muscles and joints. Generous sized bottles at all druggists, 25c., 50c., \$1.00.

Sloan's Liniment

KILLS PAIN

Preparing Future Carnage

No Better Method Than That Pursued by La Follette

Just as we are familiar in modern discussions with the idea of a mind which liberates itself from some small doctrinal religion in the search for a larger and truer religion, so men like Mr. La Follette in America and Mr. Snowden in England are only abandoning the present limited war in order to find liberty and peace in the broad bosom of a larger, truer, more universal war to be fought, like all good things, in the future.

It is foolish indeed to accuse such men of any failure in courage. From the colossal dimensions of the carnage which they prepare even a pacifist might almost shrink. Nor is their wisdom less worthy proved than their valor, for if the ideal to be pursued is that of a sure and certain hope of the resurrection of war in Europe, it would be impossible to find a better, among a million expedients, than the precise expedient they have chosen.

It would be impossible so perfectly to combine all possible precautions against peace, as by this one method of letting all the nations accumulate more and more aggravated motives for conquering Germany; and then to cease firing suddenly, so as to convince Germany that she cannot be conquered.—G. K. Chesterton in the North American Review.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

Another Slap at Sappy

"What's weighing on your mind, Cholly?"

"Do you think my mind is a pair of scales?"

"Well, no, if you want to be precise about it—scales are evenly balanced."

TYPHOID

is no more necessary than Smallpox. Any experience has demonstrated the almost miraculous efficacy, and harmlessness, of Antityphoid Vaccination. Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance. Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccine, results from us, and danger from Typhoid Carriers. THE CUTLER LABORATORY, BERKELEY, CAL. PRODUCING VACCINES & SERUMS UNDER U. S. GOV. LICENSE

Finding Enemy U-Boats

Locating Device Improved After 40,000 Suggestions

Important progress has been made in the problem of locating submarines, after which their destruction is a comparatively simple matter, Secretary Daniels said, in a statement at Washington, discussing the 40,000 separate suggestions, plans or models of devices submitted to the naval consulting board since the United States entered the war against Germany.

"The idea that the submarine will be overcome by a miraculous invention is not now seriously considered," the secretary said. "The more intimate knowledge the civilian obtains on this subject, the more convinced he is that the submarine can be caught by persistent hunting down by the weapon of which he is most afraid. This is the armed service boat, equipped with all the latest scientific devices and typified in the modern torpedo boat destroyers. Foreign naval authorities have frankly stated their admiration of the degree of perfection of American designs."

Chances of War

"Twenty-nine Chances to One Your Boy Returns"

Well-informed military men say that if your boy goes to the front: He has twenty-nine chances of coming home to one chance of being killed.

He has ninety-eight chances of recovering from a wound to two chances of dying.

He has only one chance in 500 of losing a limb.

He will live five years longer because of physical training.

He is freer from disease in the army than in civil life.

He has better medical care at the front than at home.

In other wars from ten to fifteen men died from disease to one from bullets.

In this war one man dies from disease to every ten from bullets.

This war is less wasteful of life than any other in history.

Only 10 per cent. of all Canadians disabled for further service have been physically unable to engage in their former occupations.

If your boy is one of the 10 per cent, the government will re-educate him in another vocation at which he can earn a living.

Recognized as the leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

The Overseas Tongue

Accents of Overseas Soldiers a Source of Mystery to London Scribe

One of my correspondents is puzzled by the accents of our soldiers from overseas. Many of the Australians and New Zealanders, he points out, talk the most flagrant Cockney, though they never had been in Britain before the war; and the name of the Canadians with a well-defined Scottish lilt and burr is legion. In all these cases, he suggests, the accent and idiom are acquired from emigrated parents who take a pride not only in retaining but in emphasizing the dialect of their native lands. Not a few of the Canadian soldiers have even a working knowledge of Scottish Gaelic. But how in each of these cases, do local or racial peculiarities manage to survive when, we know, even a provincial "burr" gradually disappears when its owner brings it to London?—Westminster Gazette.

CORN LIFTS OUT, DOESN'T HURT A BIT

No foolishness! Lift your corns and calluses off with fingers—It's like magic!

Sore corns, hard corns, soft corns or any kind of a corn, can harmlessly be lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority.

For little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

This announcement will interest many of our readers. If your druggist hasn't any freezone tell him to surely get a small bottle for you from his wholesale drug house.

Excursions East and West

C.P.R. Eastern Excursions During December Will Be Popular

Daily during December Special Round Trip Excursion Rates will be in effect to practically all points in Eastern Canada. On certain dates during December, January and February low round trip fares to Vancouver, Victoria and New Westminster will also be effective. The two trans-continental trains every day both east and west over the Canadian Pacific Railway, (which has become known as "The World's Greatest Highway") are Canada's finest and afford travelling without the annoyance of transfer and with no thought regarding checked baggage until arrival at destination. Those contemplating travelling are advised to make arrangements early. Reports from the officers of the C.P.R. indicate an extra heavy excursion travel this year.

Request full information from any agent of the company who will make arrangements and secure your reservation.

Minard's Liniment Cures Garget in Cows.

Knitting in Church

The Sunday morning sermon of Rev. L. B. Longacre, Congregational minister, at Denver, Colo., is now accompanied by the merry clicking of a hundred pairs of knitting needles. Women of his congregation, unwilling to leave off their knitting of sleeveless sweaters and other comforts for the Sammies, petitioned the pastor for permission to knit during the service. He not only agreed, but assisted them to recruit members for the Sunday morning knitting class.

GET RID OF Pimples

Quickly, Easily and Cheaply by Using

Cuticura

The Soap to cleanse and purify, the Ointment to soothe and heal. Nothing better for all skin and scalp troubles, as well as for every-day toilet purposes.

Sample Each Free by Mail
With 72-p. Skin Book. For samples address post-card: "Cuticura, Dept. N, Boston, U. S. A." Sold throughout the world.

A Western Admission

The supposed tyranny of "monarchical England" doesn't exist. The fact is the government of England is more responsive to public opinion than our own, because prime minister is not chosen for a fixed term. He holds office only so long as a majority in the house of commons supports him. If the members hear from "the folks back home" they can upset the government any day.—Washington Post.

SERIOUS ILLNESS AVOIDED

Many a serious illness has been avoided by the prompt use of Dr. Williams' Pink Pills. These pills actually enrich and purify the blood, and in this way build up the system, tone and strengthen the nerves and invigorate the vital organs.

Serious diseases generally come from some simple disorder that has been neglected. Therefore any thinning of the blood should be looked upon as a warning sign, and more serious illness should be avoided by the use of Dr. Williams' Pink Pills. In the case of young girls and women the blood is peculiarly liable to get out of order—to become thin and watery—and to lead to a general breakdown in health. This can be avoided by the occasional use of Dr. Williams' Pink Pills, which are suitable for the most delicate constitution. These pills will give you a new appetite, improve your digestion, tone and strengthen weakened nerves, banish depression and lack of energy, clear the complexion of pimples and blotches, cure pain in the back and general weakness, cause the disappearance of headaches, dizziness and heart fluttering. Give these pills a fair trial and you will soon note a wonderful change in your condition. Your spirits will brighten, good health and strength will return, and you will feel like a new person. You can confirm these statements by enquiring among your friends almost anywhere, as thousands and thousands of hopeless sufferers have been restored to new health and energy by using Dr. Williams' Pink Pills.

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from "The Dr. Williams' Medicine Co., Brockville, Ont.

The various governments will be faced with a calamitous general deficiency of some of the principal foodstuffs, threatening, quite possibly extensive local starvation; with huge deficiencies in such materials as the metallic ores, coal, timber, hides, oil, wool, rubber, potash, etc., and with such a scarcity of merchant shipping and railway wagons and such a dilapidation of all the ways of land transport as seriously to aggravate all the shortages of commodities.—Contemporary Review.

Germany Aims to Dominate Industry

What Must Inevitably Result From German Military Success

A point which has been too little dwelt upon in the discussions of the war was brought out strongly by the president—that this is not merely a war for political power, but a struggle between opposing industrial systems and ambitions. It was not alone for the purpose of dominating the politics of the world that Germany dealt this blow; it was even more for the purpose of dominating and controlling the industry of the world—of making the industry of all other nations subject to that of Germany, dependent on conditions prevailing in Germany, of compelling all other industry to pay tribute to Germany. This was the great economic purpose to be achieved by political domination. It was the German idea of an economic place in the sun. It was the stake by the winning of which the war might be made economically worth (to Germany) even its enormous cost. It is what must inevitably result from German military success.—From the Buffalo Express.

Monisms

For 15 days in the month of January I was suffering with pain of rheumatism in the foot. I tried all kinds of remedies but nothing did me any good. One person told me about MINARD'S LINIMENT; as soon as I tried it the Saturday night, the next morning I was feeling very good; I tell you this remedy is very good; I could give you a good certificate any time that you would like to have one. If any time I come to hear about any person sick of rheumatism, I could tell them about this remedy.

Truly yours,
ERNEST LEVEILLE,
216 Rue Ontario East, Montreal.
Feb. 14, 1906.

Meant Well

"What do you know of the character of this man?" was asked of a witness at a police court the other day.

"What do I know of his character? I know it to be unbreakable, your honor," he replied with much emphasis.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts through the blood on the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. C. HENRY & CO., Toledo, Ohio. Sold by all Druggists, etc.

Heck—Yes, I have met your wife. In fact, I knew her before you married her.

Peck—Ah, that's where you had the advantage of me—I didn't.—Boston Transcript.

'Tis a Marvellous Thing.—When the cures effected by Dr. Thomas' Electric Oil are considered, the speedy and permanent relief it has brought to the suffering wherever it has been used, it must be regarded as a marvellous thing that so potent a medicine should result from the six ingredients which enter into its composition. A trial will convince the most skeptical of its healing virtues.

"I never read what the newspapers say about me," remarked the pompous statesman.

"Well that helps to account for it."

"To account for what?"

"The things the newspapers have lately been saying about you."—Washington Star.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

"I've been advised to read something deep. What can you recommend?"

"Well, there's 'Twenty Thousand Leagues Under the Sea.'—Boston Transcript.

Minard's Liniment Cures Distemper.

Cannot Forgive or Forget

To forgive and forget the horrors that have accompanied German colonizing methods would be as fatuous as forgiving the depredations of a tiger or forgetting what are his predatory propensities. If any colonizing race of mankind, since the cruel days of Assyrian deportations, has shown itself unworthy of being trusted with the control of native races it is German.—Nineteenth Century.

Crimes as Blunders

A German paper refers to Count von Luxburg's conduct in Argentina as "a blunder." The attitude is typical.

Crimes committed by German agents are blunders if discovered; otherwise, they are good deeds done for the glory of the fatherland.—Montreal Star.

Railroad Men

These men know from experience that Sloan's Liniment will take the stiffness out of joints and the soreness out of muscles—And it's so convenient! No rubbing required. It quickly penetrates and brings relief. Easy to apply and cleaner than messy plasters or ointments.

Always have a bottle in the house for rheumatic aches, lame back, sprains and strains.

Generous sized bottles at all druggists, 25c., 50c., \$1.00.

Seed Grain Distribution

The Government of Alberta purposes an Act at the present session of the legislature empowering the Municipalities and Local Improvement Districts throughout the Province to supply seed grain to farmers in their Municipality or Local Improvement District who have been haled out, or whose grain crop has been killed by draught during the past year. The Government will arrange to endorse these Municipalities and Local Improvement Districts at some chartered bank to obtain the money at reasonable rates, the Municipality or Local Improvement District to receive the applications for seed grain and distribute the same, take the notes for it and make the collections when due.

The difficulty in the past with the distribution of seed grain has been the cost of collection for the same over so wide an area as the entire Province of Alberta. With each Municipality or Local Improvement District having charge of this matter the secretary of this local unit will be in close touch with the farmer who receives seed grain and can attend to both the distribution and collection at a minimum cost. The Seed Grain Branch of the Dominion Department of Agriculture has made purchases of seed grain throughout the Province of Alberta and have this grain now stored in the Dominion elevator. The purchase and distribution of it is in charge of Mr. A. E. Wilson, of the Dominion Seed Branch, Regina, Sask. The secretary of each Municipality or Local Improvement District as soon as he ascertains how much seed grain is required in his district will notify Mr. Wilson and he will arrange for the delivery of the same. In the meantime, any secretary of a Rural Municipality or

a Local Improvement District who will write Mr. Wilson at Regina will get from him a circular giving the prices at which the Dominion Government will sell their seed grain, their proposition being to deliver it to the farmer as nearly as possible at cost.

In the parts of the province outside of Rural Municipalities and Local Improvement Districts the Seed Branch of the Provincial Department of Agriculture will arrange to supply seed grain to farmers whose crop has been so damaged during the year 1917 that they have not sufficient good seed to sow. It is important that farmers who require seed grain should communicate at once with the secretary of their Rural Municipality or Local Improvement District letting him know their wants, and as soon as the legislature resumes its session the necessary legislation will be introduced.

AUCTION SALE

TRANQUIL MILLER

Having received instructions from Tranquil Miller I will sell by Public Auction at his residence, south east of Fred Moyle's residence, East Didsbury, on

Saturday, February 23

the following Household Goods:

Range (almost new) dining table (almost new), kitchen table, Hoosier cabinet, stand, sewing machine, 2 red rockers, mahogany rocker, 2 oak dressers (almost new) one dozen dining chairs, 2 Virnis Martin beds, Iron bed, 3 bed springs, horse collar, and many other articles too numerous to mention.

As Mr. Miller is leaving the country everything must be sold

The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

Gloomy and Desperate Days Ahead

Treachery of the Enemy More Dangerous Than the Armed Force

There are gloomy and desperate days ahead for the western nations. The greatest enemy that we have now to fear is not the Germans without but the Bolsheviks within. The greatest peril in which we now stand is that what has been done in Russia, what was partially done in Italy, shall be done in France, England and America; that those who would fight and could fight shall be turned from their duty and their loyalty by vain and empty words, by voices full of madness. We shall conquer the Germans if we have only the Germans to fight. We shall be conquered by the Germans ourselves if our own Bolsheviks succeed as the Russians have succeeded, and if they succeed we shall find the German terms of peace not less onerous than those made to the affrighted dreamers of Russia, who now stand agape and helpless in the face of an armed enemy demanding millions of their citizens, thousands of square miles of their territory and the future economic independence of their nation. —New York Tribune.

Pills That Have Benefited Thousands.—Known far and near as a sure remedy in the treatment of indigestion and all derangements of the stomach, liver and kidneys, Parmelee's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

Rare Record B.C. Salmon
From figures received by Col. F. H. Cunningham, of New Westminster, chief inspector of Dominion fisheries, it is shown that the pack of canned salmon in 1917 for British Columbia totalled 1,557,435 cases, exceeding the previous record year, 1913, by 203,534 cases. The bulk of the British Columbia pack goes to Europe.

Saving the French Children Consecration and Sacrifice

American Red Cross Will Retrieve
Health and Happiness for
Them

The war has made terrible inroads on the next generation in France. A birth rate already alarmingly low has fallen to a point where France in a single year—the second of the war—suffered a net loss of almost 2 per cent of her population. The Red Cross has sent three groups of specialists and nurses to France to engage in educational and hygienic work throughout the country to help check the increase in infant mortality.

The children who were born just before the war in the devastated districts have lived through such frightful experiences as to rob them of anything approaching normal growth and development. It is marvelous that they survive at all. To take these children from the peril of bombs and gas and unnumbered horrors, to keep them in bodily safety under devoted and intelligent care until they can be sent back to their homes or relatives, is the purpose of the Red Cross children's work. For this purpose several centres have been established behind the lines. At one such centre six hundred children were gathered together from villages which had been bombed. They are now housed in a comfortable Red Cross barracks, provided by the French government, under the care of an American specialist and American Red Cross nurses.

From another centre of children's work a travelling dispensary mounted on a small motor truck is making the circuit of the surrounding villages. The shower bath which this motor truck carries gives many of these youngsters the first bath they have had for many months. The Red Cross is caring too, for children who have been exposed to tuberculosis and for the children, often sick and miserable, who come back to France with the repatriated prisoners from behind the German lines after months of undernourishment and neglect.

These children, after all, need only a little good feeding and a little skillful care to become well and hearty again. It is the privilege of the Red Cross to help tide them over the period of helplessness, when outside aid is imperatively necessary.—Eliot Wadsworth in the Outlook.

WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift
corns or calluses off with
fingers—no pain

Just think! You can lift off any corn or callus without pain or soreness.

A Cincinnati man discovered this ether compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the surrounding skin. Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house.

U. S. Casualties Total 1,394

Up to December 1, according to figures obtained from official records in Washington, 1,394 members of the military forces of the United States had died, had been wounded, or had been reported as captured or missing. The data cover the period from the day war was declared last April. Of this total mortality there were 937 deaths from natural causes and 352 accidental deaths. Eleven were killed in action and 18 have been lost at sea, none of them from the transports carrying troops to France because of enemy attacks. Causes of the deaths of 30 men have not been ascertained. This casualty list is for all American forces—in Europe, in home camps and in islands and possessions.—Minneapolis Tribune.

Minard's Liniment Cures Colds, Etc.

Twenty-five Per Cent. Increase

That an increase in hog production next year all over the Western provinces of Canada, amounting to twenty-five per cent., may be expected is the report of Mr. J. D. McGregor, western representative of the food controller.

The province of Saskatchewan, Mr. McGregor states, especially stands out in its enthusiasm and determination immediately to increase its hog supply. There is likely to be an increase there of even fifty per cent. more than the total of 1917.

Face to Face With the Most
Stupendous Crisis in Human
History

We are face to face with the most stupendous crisis in human history. This is the most momentous hour that civilization has known. There is no middle ground. It is death or victory. Death to our country; death of the women and babies of the land; death to its men; death to our civilization and to the civilization of the world, all on the one side; or a complete victory of this country and the allies over Germany on the other side.

The struggle will be a long and desperate one. It will tax to the utmost every latent and every developed, mental, moral, spiritual, financial and physical force of this country. He who is a slacker in thought, in word or deed is an enemy to every woman and every child in this country, an enemy to our nation and to civilization.

Let it be preached from the pulpit, let it be taught in the classroom, let it be proclaimed wherever men meet; let every individual soul outside of the insane asylum think and speak in terms of consecration and concentration of all that is in him and all that to which the world has ever been called.

We can win, we can gloriously win, if the nation will consecrate its all to the winning. But it means a fearful sacrifice of the flower of the nation's life thrown upon the altar in defense of all that men and women hold dear on earth. It means consecration to the nation's salvation or eternal damnation by Germany. Which do you choose?—From the Manufacturers' Record.

THANKFUL MOTHERS

Mrs. Willie Theriault, Paquetville, N.B., says:—"I am extremely thankful that I tried Baby's Own Tablets for my baby. Through their use baby thrived wonderfully and I feel as if I cannot recommend them too highly." Baby's Own Tablets break up colds and simple fevers; cure constipation, colic and indigestion and make teething easy. In fact they cure all the minor ills of little ones. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Shipbuilding in B. C.

Revival of an Old Industry Through
the Exigencies of War

It is possible that the shipyards of British Columbia may soon be constructing vessels for the Australian government. Australia wants vessels, and wants them badly, and negotiations are now being carried on by the shipbuilders of British Columbia with the government of the commonwealth with a view to agreeing orders.

At present there are six shipbuilding yards operating in British Columbia, and the program so far provides for the construction of forty-one wooden vessels. Twelve of these are auxiliary wooden schooners, and compose the fleet of the Canadian West Coast Navigation Company, two are for the Canadian government, and twenty-seven are contracted for by the imperial munitions board.

The cost of the material that must be applied to the completion of the ships now under construction in the province will, it is estimated, approximate \$1,700,000.

In order to finance the shipbuilding undertakings, actual and contemplated, the British Columbia Manufacturers' Association is endeavoring to secure from the Dominion government what it terms a "shipbuilding loan."

If history can be relied upon, it is just 131 years since the first vessel was constructed upon the Pacific coast.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. There is no oil that so speedily shows its effect in subduing pain. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Binder Twine at Reasonable Prices

Ensure Ample Supply Binder Twine
in Canada

An ample supply of binder twine for Canadian requirements next year at reasonable prices has been ensured as the result of an agreement reached between the United States food administration and the Mexican sisal growers of Yucatan. Information to this effect was received at the office of the food controller. The growers were holding out for a high price, but under the arrangement just consummated the entire crop has been secured at a slight advance over last year's price. Co-operation of Canada and the United States in controlling food exports from this continent was one of the factors which made it possible to secure the sisal supply on reasonable terms.

Distribution of Wealth

More Big Millionaires in Britain
Than in United States

Millionaires are more numerous in America than they are in Great Britain, but the multi-millionaires of Great Britain are more numerous than the multi-millionaires of America. In other words, the millions of America are more evenly distributed amongst the very wealthy as a class, than the British millions amongst the wealthy of Great Britain.

Only ten people in the United States have as much as \$125,000,000 each. In Britain 79 people have each as much money. Nine citizens of the United States have \$100,000,000 each. Great Britain has 68. Only 14 people in the United States own amounts from \$75,000,000 to \$100,000,000, but Great Britain has 45 of these. There are 73 who own from \$50,000,000 to \$75,000,000 in Britain while in the United States there are only 34, and Great Britain has 61 people with from \$37,500,000 to \$50,000,000 while America has of this class only 42.

But America has 97 citizens owning from \$25,000,000 to \$37,500,000, as compared with Britain's 83 and of millionaires in general America has 22,696 while Great Britain has only 5,154. There are also in the United States a great many people with incomes of from \$30,000 to \$40,000 a year who may be in the millionaire class as regards capital owned if it is invested at only 3 per cent., or whose fortunes may be subject to fluctuations reducing their average income, and placing them on the income basis, at least, out of the millionaire class.

It has been discovered that in the United States less than 1 per cent. of the total revenues derived from taxing individual incomes comes from the millionaire class.—Financial Post.

Minard's Liniment Cures Distemper.

Purchase Surplus Flour

Allied Governments Make Arrange-
ments With Canadian Mills

It is learned that the purchasing representatives of the allied governments have arranged to take all the surplus flour and oatmeal manufactured by the mills of Canada, and that already every mill in the Dominion is working to capacity and will continue to do so until the work is over. The mills are grinding night and day, and the surplus above Canada's requirements apportioned to these plants is being turned over to the purchasing agents for the allied governments by the managements in the east.

An Anglo-American Alliance

George Louis Beer in the January
Yale Review

The necessity for close co-operation between all the English-speaking peoples and also the moral and rational justification of such a combination, are recognized by all who have devoted serious thought to the problems of the future and are willing to face the world as it really is. In Germany, and also in Japan, such an association is widely considered to be inevitable. But the question still remains what, if any, outward form shall this essential co-operation take. As the Germans deny the reality of the world community and base their policy upon the assumption of an inherent antagonism between juxtaposed states, they cannot conceive of this future relation as other than an offensive and defensive alliance of the older type with its aggressive and selfish purposes. To them the project is merely the expression of self-regarding, but entirely justifiable, nationalism of a world-wide group of closely related states. But an association of this character, an alliance of governments, would mark no real advance to a better international future. Unless it were an alliance of peoples based upon their common needs, it would be an ephemeral arrangement. Fortunately the spiritual foundations exist. As Viscount Grey has expressed it: "The more closely the two peoples come into contact, the better they get to know each other, the more I believe it will be apparent to each not only that they speak the same language, but that they use it to mean the same things, that they both have the same idea of freedom and liberty, and desire the same sort of world in which to live." A popular democratic alliance based upon such like-mindedness points the road to new types of political association which will permanently unite under a common law different nations and states. Such an organization based upon the will to co-operate would give some assurance of the possibility of an ultimate world state. Otherwise the outlook would indeed be black. If mankind is to be forever split up into the watertight political compartments of the modern state system, if each state is to cling forever to its sovereign independence, there will be no ultimate prospect of an effectively organized world community and war will continue to demand its human holocaust.

Warts are unsightly blemishes, and corns are painful growths. Hollo-way's Corn Cure will remove them.

AROUND THE TOWN

Miss E. Kerr, principal of the Public School, was a Calgary visitor over the week-end.

Mrs. Chas. Deadrick and Mrs. A. Deadrick will have charge of the Red Cross tea room Friday.

Mr. and Mrs. L. C. Coffey, of Calgary, spent the week-end visiting with Mr. and Mrs. H. E. Osmond.

P. P. Woodbridge has resigned the Secretary-Treasurer's position in the U. F. A. on account of ill health.

J. V. Berscht will continue his clearaway sale till March 5th. This is a great chance to make your dollars count. Don't miss it.

The Red Cross sewing circle will meet at Mrs. Robert Moore's, Wednesday, February 27th. All the ladies are invited to attend.

Mrs. Laura Molitor, of Duluth, Minn., is visiting with her brother,

Mr. W. F. Sick. It is 35 years ago since Mr. Sick saw his sister last.

Mrs. A. G. Howe, P. N. G. of Cassandra Rebekah Lodge, No. 35, left for Edmonton on Sunday last to attend the annual session of the Grand Lodge of Alberta, I. O. O. F.

The Rugby Women's Institute will meet at the home of Mrs. Hughes on Thursday, Feb. 28th, at 2 p. m. Subject—"First Aid in home nursing," by Mrs. Chas. Brown.

Mr. and Mrs. John K. Smith who have been visiting their daughter, Mrs. A. A. Perrin for the past few months, returned to their home at Hanover, Ont., last Friday, and en route will spend a week visiting old friends at Gull Lake, Alta.

A dance will be given by Cassandra Rebekah Lodge in the I. O. O. F. hall, Leuzler block, on Friday evening, February 23rd. Cards for those who do not care to dance. Admission \$1.00 a couple, extra lady 25c. Supper will be provided by the ladies of the lodge.

A big sleighload of the officers and

members of St. Hilda's Chapter of the Eastern Star journeyed to Olds on Thursday night last on invitation of the Olds lodge to help to put on degree work. Those who took advantage of the trip report a very good time in spite of the cold weather.

Harry Pearson, of Lone Pine, was rather badly hurt about the head last Monday night. He had unhitched his team from the bobsleigh, but one tug was caught causing the whippetree to swing round and frighten the horses which threw Mr. Pearson to the ground, bruising his head and face rather badly. He came into town to have the injuries dressed.

A very successful box social was held at Mowers schoolhouse on St. Valentine's Day, Thursday, Feb. 14th, under the auspices of the Mowers-Rosebud Literary Society. A programme was given consisting of songs, instrumentals, recitations, and a paper entitled, "Rosebud Times." Boxes sold from \$2.50 to \$20, the proceeds totaling \$143.00, which will be equally divided between the Red Cross and the Children's Shelter at Olds. The next meeting of the Literary society will be held in the Rosebud schoolhouse on Friday, March 1st, at 8 p. m. Everybody welcome.

Marriage

FINDLAY-ADAMS

The marriage of Mr. Will Findlay, of Westcott, to Miss Florence Adams, of Springside, took place on Thursday, Feb. 12th, at 4.45 p. m. in the M. B. C. church, Didsbury, and was an event of much interest to the many friends of the young couple. The day was beautiful and friends from far and near filled the large auditorium of the church to await the ceremony. When the hour came Miss Adams entered on the arm of her father who gave her away. She was attended by Miss Hilli Saven, of Edmonton. The groom was attended by his brother, Mr. J. S. Findlay, of Westcott.

Mr. Findlay was the Men's Missionary for five years in the work of Beulah Mission, Edmonton, and since has done successful church work on the prairies.

Miss Adams graduated last May from the Royal Alexandra Hospital, Edmonton, taking this training in view of going to Africa.

The young couple are prospective missionaries to Nigeria, West Africa, though sailing is uncertain at present.

They took the 5 p. m. train for Calgary and Vancouver. Upon their return and until they can sail for Africa, Mr. Findlay will do evangelistic work under the M. B. C. Church.

Mr. and Mrs. Findlay will have the best wishes of the host of friends which they have made wherever they have gone.

UNION BANK OF CANADA

Give Your Wife an Interest

in the family's financial progress by opening a Joint Account in the Union Bank of Canada, in her name and your own.

You will find it a very convenient arrangement, for then either can attend to the banking when in town, making deposits or withdrawing money. In case of death, the balance automatically goes to the survivor.

T. W. Cunningham, mgr. Didsbury Branch J. B. Wilson, Manager Carstairs Branch

Of Interest to Farmers

To avoid delay and inconvenience in having their Spring harness and repair work done in time to go on the land, I would strongly advise farmers to bring their work in early and give us a chance to give you that good work and satisfaction that is so difficult to give when over-crowded with work. Our prices for repairs are very reasonable and mean a big saving when high prices of new harness are considered. We clean, oil and blacken harness for \$3.00 per set team harness

Bring your's in and see us make it look like a new set.

This year I am showing some special good lines and values in Plow and Spring Team Harness

Have you seen the new 4-ply waterproof heavy canvass belting harness? This new harness material I am sure will interest you and I will be glad to have your opinion on them.

I have in stock

all harness repair parts, also driving, buggy, democrat and team harness, saddles and all riding equipment.

My line of

Travelling Goods

is very complete and at prices that will compete with the largest firms in the West.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

Live stock may be substituted for cultivation under certain conditions.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$30 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

W. W. CORY, C.M.G., Deputy of the Minister of the Interior.
